Dear Parents

Home Challenge: Recycled Christmas Tree Decorations

As part of our continued Eco Focus, we have another 'Home Challenge' that we hope you and your child would like to take part in!

After the success of last year's Eco Christmas tree, we again would like to ask all children to bring in an "Eco" Christmas decoration for our school tree, which will go up in the hall on 1st December.

We ask that your Christmas decoration is made from recycled materials and is not too big, so that all artwork brought in by pupils can be placed on the tree. It would be lovely to have all children represented on our school Christmas Tree where possible– we do hope you can join in! We will of course be recycling last year's decorations for our tree as well.

We would like all decorations to be in school for **Thursday 1st December**, so that we can start putting them onto our tree!

We have placed some photos on the page for inspiration – but feel free to be as creative as you can be!

Many thanks for your continued support,

Gerida Montague
